Professional electrical solutions

SURGE PROTECTION

Is your
SWITCHBOARD
protected against
power surges?

*Our Accreditations: ACRtick certified AU29905 | Accredited Master Electrician | ACRS Master Cabler

Protect all of the electrical items in the house:
- air conditioners, pool equipment, TV's, etc.
from storm power surges & lightening strikes

Works to protect computer equipment in
conjunction with power surge packs.

Surge protection works with UPS
(un-interrupted power supply) for ultimate
computer/data protection

Will NOT protect against brown-outs
(when voltage drops lower than 210v)

We are happy to visit your home or office to

QLD Electrical Licence Number 53471

3378 5525

Professional & reliable electrical solutions

In 2002 Rob set up Rob Buchanan Electrical and has since gained a reputation for providing high quality electrical solutions for residential, industrial and commercial premises across Brisbane's Western Suburbs, CBD, South East Queensland.

Rob has put together a team of friendly, trusted and long-term employees who are encouraged to participate in ongoing skill development and training to ensure their knowledge and compliancy is up to date. Rob is extremely proud that RBE is known for its reliability, prompt service, attention to detail and competitive rates - saving you \$\$\$.
